

THE GERMAN RAILWAY SOCIETY

Presents

Welcome to Globalrail 2016

The show is split across 3 halls and the foyer area; please make sure you visit all 4 areas to see all the exhibits. Please **do not touch** any of the layouts or models and please ask before taking photographs.

Drinks and light refreshments are available in the bar area (for those looking for more substantial fare, there are a variety of cafes along Broadway, less than 5 minutes walk from the exhibition venue. Pass-outs are available at the door). Toilets are located in the rear corridor leading to the Ladygrove hall.

In the unlikely event of first aid being required, please speak to a steward.

Please enjoy the show!

Alan Monk & Tony Dean, GRS Globalrail Organisers

Layouts

Bad Obing (O) Chris Peters

A country terminus in southern Germany, set in the early 1960s with DCC sound and working signals

Bahnbetriebswerk Dügelshausen (H0) Doug Tompkins

A small locoshed located in the northern part of the BRD, near the inner-German border and set between 1979 and 1984, this compact layout shows what is achievable in a small space.

Catford Vermont (H0) and **Köln Beutelmeize** (H0) Andrew Knights

Variations on a micro-layout theme, built to show what is possible using limited space (each layout is just 3'3" x 1'), time and funds, whilst retaining operational interest and fun!

Clara Zetkin Stadt (H0) Tony Dean

A glimpse through 'The Wall' into the former East Germany (DDR) during the 1950s & 1960s.

Höchstädt (O) Bill Bishop

Höchstädt is set in the Fränkische Schweiz area of Bavaria during the summer of 1960.

Kanjiyama (N) Nick Harling

A Japanese Railways terminus, set in the mountainous Yamanashi prefecture during the late-1980s

Little Hister (O) Chris Pye

Little Hister represents an O Gauge Southern Region (LSWR) branch line terminus located on the South Coast of England. The period is set in the late 40's early 50's.

Rhineside (TT) David Harris

Based on an actual location, the double-track line running along the west bank of the river Rhine, in the gorge south of Koblenz, by the 'Loreley' in the 1994-2004 period.

South Bohemia (TTe) Blair Hobson

Czech 760mm gauge, using Z gauge track in the 1:120 (TT) scale allowing a view of a railway in the scenery.

Starker Verkehr (H0) Steve Grantham

A modern, post-privatisation small freight yard, set just outside Aachen around the year 2000 (Epoch V)

Stromallee (TT) Richard Self

Set in the former East Germany, Stromallee comprises an electrified mainline with passing loop, feeding a small selection of industries around the turn of the century.

Wolpertinger Hbf (N) Paul Smith

A slice of Bavaria, Epoch V/VI, featuring a 7-platform station, loco servicing depot and a small S-Bahn stabling yard.

Zevendaal (H0) Tom Nicholls

Fictitiously based in the Overijssel region of the Netherlands and inspired by the rail yards and docks of Zutphen and Deventer, allowing plenty of variety of freight and loads.

Societies

German Railway Society

The GRS is a friendly railway society for English-speaking enthusiasts of German Railways. Our aim is to encourage interest in all aspects of German railways and share information via our quarterly magazine 'Merkur' and the GRS website, etc. We welcome all interests, prototype enthusiasts and modellers irrespective of scale and make of model railway. The Society has a range of items for sale, including the 3 highly regarded and useful books on German Railways signalling practise. In addition, today we are running a member's Bring & Buy stand where you just might find that bargain!

www.grs-uk.org

SNCF Society

Celebrating their 40th birthday in 2016, the SNCF Society is a must for anyone with an interest in the railways of France. Members receive the quarterly magazine 'The Journal' and may access the extensive library and archive.

www.sncfsociety.org.uk

Scandinavian Railway Society

The Scandinavian Railways Society was formed in 1993 for the growing numbers of enthusiasts and modellers of Scandinavian railways who want an English language focus for their interests in all aspects of the railways of Denmark, Finland, Norway and Sweden as well as the lesser-known railways of Iceland, Greenland and the Faroe Islands.

www.scanrailsoc.org.uk

Austrian Railway Society

The ARG was formed in 1991 and caters for anyone interested in the railway of Austria, both real and model and covering mainline, narrow gauge and tramways and offers a quarterly journal and email group.
